The red one is really good! Exactly the type of background i described at the blue background. Keep it up! :)

Is this completely made with this here <http://alexcpeterson.com/spacescape?> Wow, that looks awesome... I'm gonna check that out. Thanks for mentioning.

I used one of your skyboxes in my game (<https://play.google.com/store/apps/details?id=com.Erebnyx.RainbowSnake>), the credits are in the description. Do you want me to add a link to a particular website ? Thanks for the awesome art !

Thank you for this fantastic skybox.

For unity users that use the Skybox/6-sided or Mobile/Skybox shader material, swap left for right and right for left.
